Re: Tuesday January 25, 2005 letter regarding alleged violations of Spam laws.

Mr. Mumma,

I am in receipt of your recent correspondence regarding the above subject matter. We absolutely deny any violation of any spamming laws. That notwithstanding, federal law, Can-Spam Act of 2003, supersedes Oklahoma State law, precluding any cause of action under Oklahoma law. Further, the federal law does not provide a private remedy for violations. Only the state or federal government may bring actions under the law. In short, your threats are invalid.

Please be advised that we have removed inbox@webguy.net from our mailing list. Also be advised that we consider this letter a sufficient explanation of both Federal and State anti-spamming law, as they apply to your allegations. Any further action on your part will be dealt with accordingly.

Sincerely,

John J. Lawless
